Subject: gov. bogus lawsuit

TO WHOM IT MAY CONCERN:

The justice dept. had no business trying to corner the Microsoft Corp. in an illegal, totally bogus, politically motivated class action lawsuit. Because Bill Gates has more brains than any of his competitors is certainly no reason for his competitors to stage a legal frenzy against him. This lawsuit shows the ignorance (and jealousy) of many democratic politicians and clinton. Heres the best advice you're going to get from the AMERICAN PEOPLE : Drop the lawsuit, apologize to Bill Gates, pay him back for all expenses and then, GROW UP.
